DETAILED ACTION

Receipt is acknowledged of applicant's Request for Extension of Time, Request for Continued Examination, Preliminary Amendment, and Terminal Disclaimer filed 07/03/03.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/03/03 has been entered.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 12/26/03 was filed after the mailing date of the Office Action on 06/04/02. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

El ction/R strictions

Claims 43 and 44 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected specie, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 18.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claims as provided by 37 CFR 1.141. if claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 33-36, 38-48, and 50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 33, lines 1-2, the phrase "including a particle size reduction process such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d). It is suggested to amend to "[A] method of preparing submicron to micron size fenofibrate particles by sonication, homogenization..."

Response to Amendment

The reply filed on 07/03/03 is not fully responsive to the prior Office Action because of the following omissions or matters: it is noted that the Office Action dated 01/29/03 indicated that the application is in condition for allowance based on the preamble of claim 33. It appears that applicant inadvertently deleted the Markush group of surfactant, which was previously recited in claim 33. See 37 CFR 1.111.

Accordingly, this application is in condition for allowance if the 112, 2nd paragraph is resolved, and the Markush group of surfactant is incorporated into claim 33.
